# BEAT CABIN FEVER

We can help you beat cabin fever by offering you some fresh, new and exciting items that your customers will love. We've worked very hard to find some sensational lines to help you expand your customer base.

The current economic situation forces people to stay where they live and "feather their nest" so to speak. They are choosing to add more comfort to their home interiors and create more luxurious and relaxing rooms.

People are choosing to entertain at home, now more than ever. It can also be easier than ever with Boston International's wide array of beautiful paper products that really are a work of art! Entertaining doesn't have to be time consuming and it doesn't have to include your finest china. Your guests will be amazed at the beauty of your table and you will have time to spend with them rather than with your hands in the kitchen sink!

A surefire way to beat cabin fever is to create a warm glow in your home with the soothing scent candles. No better time than this time of year for that! Aspen Bay and Deco Glow have offered some great new scents for 2012.

### Color Trends for 2012

Emerald, ruby, sapphire, golden yellow tones and exotic coral shades, vivid turquoise and luscious cream colors combined with ivory, comfortable brown, elegant silver, light gray and warm whites.

Our manufacturers are mindful of staying on top of the trends. As an industry leader, Creative Co-op takes inspiration from these new colors with some exciting new expanded lines. You will also see the influence of these color trends in Design Imports with their rich hues of blues and reds.

You will want to stop by and check out our new lines. We are excited about them and think you will be too!

- 95 & Sunny
- Detour North
- Oh, Sugar!
- A' Homestead Shoppe
- Jody's Popcorn
- Rustic River Designs
